IMPORTANT INFORMATION ON STRESS SHAPES

Please note that with anti stress shapes no two items are exactly the same shape. Also due to the material ink density may vary over the order. White print is always transparent. If wanting solid colour, gold or silver print is best because they are the most dense ink. Reverse out prints and fine text are not recommended. Pantone matching is not possible on stress shapes. If choosing a white coloured stress shape it will turn yellow after continued use. This is normal for the product. Each shipment of stress shapes can vary slightly in colour and shape
